Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Skamol A/S for the financial year 1 January - 31 December 2019.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2019 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2019.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditor's Report

To the Shareholder of Skamol A/S

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2019 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 January - 31 December 2019 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Skamol A/S for the financial year 1 January - 31 December 2019, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Independent Auditor's Report

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions

Independent Auditor's Report

may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Group's activities

Sales to segments within Industry and Building.

Objectives and strategy

The company's Management and Board of Directors are continuously evaluating Skamol's strategy, and during 2017 the strategy was redefined and clarified in the new strategy "Skamol Way Forward". This strategy clearly defines Skamols identity as technical insulation systems.

This is reflected in Skamol's market organisation, which is divided into two divisions: Industry and Building.

Market development and sales

In 2019 Skamol's turnover was DKK 403 million against DKK 385 million in 2018 and adjusted EBITDA amounted to DKK 87 million in 2019 compared to DKK 77 million in 2018. The growth in turnover and EBITDA was a consequence of a disciplined execution of the Skamol Way Forward strategy.

The market organisation in Skamol has been further strengthened during 2019 through a professionalization of the sales force through targeted training and standard work as well as increasingly global coverage, where new sales offices has been opened to facilitate the continued growth.

Manufacturing and product development

During 2019, Skamol has executed a number of investment projects in order to increase and upgrade capacity, and reduce production costs.

The most significant investment project in 2019 was the construction of a new production line in the Polish plan. The new line is being completed and started up in the beginning of 2020. This is expected to double the output of the Polish plant in a planned ramp up during 2020 and 2021.

Furthermore, Skamol has invested significantly in R&D activities during 2019, where new products have been developed and ready to market in 2020.

Skamol will continue to invest in globalization, increasing local presence, and product development and capabilities.

Risk management

The company focuses on both internal and external risks.

Internal risks are eliminated through policies and procedures that address the issues. Furthermore, the company works with risk management through internal KPI follow-up.

The development of Skamol's IT infrastructure is also an important priority for the company. During 2019 an upgraded ERP system as well as production monitoring system was implemented, which means that when entering 2020 all entities in Skamol Group are using the same IT platform.

Continuous improvements are of high importance to Skamol, and further areas to optimize the business has been identified and will be worked on in 2020.

During 2019 Skamol has continued the work on further strengthening processes through Skamol Business System, which provides the overall management framework within Skamol Group on a global scale. This involves clarification of policies etc. as an enabler for realizing Skamols growth strategy as well as identifying and mitigating risks.

Financial risks

For the whole Skamol Group inclusive of the parent company FSN SKA A/S the interest-bearing debt amounted to DKK 229 million at the end of 2019. Net interest-bearing debt amounted to DKK 185 million.

Compared to the established drawing right, Skamol has a net cash position of totally DKK 120 million at the end of 2019.

The company follows a financial policy, which operates with a low risk profile so that currency and credit risks only occur due to commercial circumstances.

As an international company, Skamol Group is exposed to risks related to currency transactions in connection with the purchase and sale of goods and services. It is Group policy to undertake identification of currency risks on current transactions. Skamol Group's main currencies are EUR, USD, RUR, PLN, AUD and NOK.

The costs of Skamol's Russian subsidiary are primarily in RUR, whereas sales are primarily in RUR and secondarily in EUR, which means that the Skamol Group as regards earnings in the Russian business is sensitive to fluctuations in the exchange rate of the RUR. During all of 2019, RUR has continued the weak position towards other currencies.

It is Group policy to optimise the loan portfolio through continuous adjustments and to carry out an ongoing assessment of optimisation opportunities.

Result, Balance and Cash Flow

The figures in brackets are 2018-figures

In 2019 the turnover increased to DKK 403 million (DKK 385 million). EBITDA before non-recurrent items (adjusted EBITDA) amounted to DKK 87 million (DKK 77 million) corresponding to 21.5 % (20.0 %) of the turnover. Depreciations and amortizations were DKK 35.8 million (DKK 32.2 million).

The total assets were DKK 557 million (DKK 470 million).

At the end of 2019 Skamol employed 458 employees. Of these, 186 employees in Denmark and 272 outside Denmark. Compared to 2018, the total number of employees increased by 15.

Deviations compared to outlook for 2019

As expected, the Group's turnover and EBITDA increased in 2019 compared to 2018, together with a positive cashflow from operations.

Outlook for 2020

Skamol expects increasing turnover and earnings in the coming years, including 2020.

Overall, Skamol estimates that there continues to be a large growth potential for Skamol's systems worldwide.

In 2020 Skamol expects a continued increase in turnover and EBITDA compared to 2019, and a positive cash flow from operations.

Subsequent events

After the closing of the financial year no subsequent events have occurred, which have material impact of Skamol's financial position.

Management

Since 2013, FSN Capital is the owner of Skamol. In 2019 the Board was composed of the following members:

Bo Rygaard, Chairman, joined 03.09.2013 Marcus Christer Egelstig, joined 30.10.2015 Nicholas Nehmzow Hjorth, joined 10.01.2017 Curt Germundsson, retired 10.08.2018 Søren Drewsen, joined 10.08.2018 Klaus Hermann Franz, joined 31.08.2015 Lone Løhde, employee representative, joined 15.05.2019 Sonja Haastrup Merrild, employee representative, joined 15.05.2019

Employee representatives are elected for the Skamol A/S Board of Directors. The company complies with the notice about employee representation in public and private companies of the 1st July 2010. The latest election of employee representatives took place in 2019. Two employee representatives are elected to the Board of Skamol A/S. Election of employee representatives for Skamol's Board will take place again in 2023.

During 2019, a total of 4 board meetings were held in Skamol. Board committees have not been established.

The general meeting has not adopted specific authorizations for e.g. allocations.

Report on the Gender Composition in Management, cf. Section 99 b of the Danish Financial Statements Act

Skamol's Board of Directors has outlined target figures for number of under-represented gender in the top management segment. It is the Board's goal that if possible the mix of the Board shall be balanced so that each gender as a minimum is represented by 1 member appointed by the general assembly. It is the target to reach the defined goal at the end of 2022, so this is aligned with a natural exchange of the Board composition. The composition of the board during 2019 did not change the gender composition, thus the target was not reached this year.

At other management levels it is Skamol's intention to increase the share of the underrepresented gender towards a balanced make-up between male and female representatives. It is the policy of the company to aim for a diversified organisation through an unprejudiced selection process where no candidate is deselected due to gender, age, nationality etc. Candidates are solely selected based on experience, competences and performance.

Skamol has at the end of 2019 a share of 30 % female representatives compared to male representatives at other management level, compared to 39% at the end of 2018. During 2019 Skamol has made efforts to continue to pay attention to making job advertisements equally attractive for men and women – both for internal and external candidates

Policies regarding corporate social responsibility

Skamol has defined policies regarding corporate social responsibility, including policies on

- Sustainability with environmental and climate related matters through development of products with
 increased energy efficiency and lifetime, and through continuous work on reduction of energy
 consumption and waste in production;
- Caring about people through focused work on health and safety and continuous people development
 and process optimisation, and by applying a Code of Conduct supporting a company culture that
 promotes integrity, our values, ethical guidelines and the Skamol Group policies;
- Respecting human rights through applying a Code of Conduct internally and in the cooperation with suppliers requiring compliance with the ILO Conventions, and national laws and regulations;
- Preventing corruption, bribery and money laundering by applying a Code of Conduct internally and in the cooperation with suppliers requiring compliance with all applicable laws and regulations on bribery, corruption and money laundering; by conducting integrity due diligences on all M&A processes and on an assessed risk basis in regard to customers and suppliers; and by applying a whistle blower policy and procedure to encourage staff, board members and others to report suspected or actual violations of laws, regulations or Skamol's Code of Conduct without retribution.

ESG impacts through the value chain

Skamol processes unique raw material into specialty insulation systems. Sustainability is integrated into the entire supply chain from sourcing to producing energy efficient systems to our customers. The result of Skamol's efforts is a net reduction in energy consumption and greenhouse gas emissions.

- Within the Building Division, Skamol delivers specialty insulation systems for renovations and new buildings.
- Within Industry Division, Skamol delivers specialty insulation systems for hot face and back up insulation that lowers the energy costs in production processes.

Skamol's raw materials are originally founded in Moler/Diatomite. Skamol excavates these raw materials in a sustainable way with respect for the landscapes and communities both during and after excavation.

ESG risks and opportunities

Skamol systems

Skamol has a unique opportunity to contribute positively to the health, safety and environment of key stakeholders, from the way Skamol sources raw materials, treats employees and provides solutions to customers.

Megatrends move towards reduction of energy consumption and higher requirements for better living conditions, which reflect opportunities for Skamol, e.g. within:

- Building Division. Energy saving, safe and healthy indoor climate systems
- · Industry Division. Energy saving and cost-effective systems

Skamol processes

.

As a global company, Skamol can be exposed to integrity risks. Continuous focus and increased awareness on how to handle and identify risks, is a top priority for the Skamol Group. Through a focus on creating a culture that supports this agenda, by caring about people and the way we act, we have an opportunity to attract the right people with the right mindset. Skamol focuses on health and safety. It is key that we do not expose our employees or surroundings to risks and that we do everything we can to prevent incidents from happening. To support these efforts, we continuously have focus on training communication and improvement of processes and procedures.

Guarantee obligations

A guarentee in the amount of DKK 750k with respect to the restoration of Moler areas and a guarentee in the amount of DKK 98k with respect to product security are incumbent on the parent company.

Other contingent liabilities

The group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. The total amount of corporation tax payable is disclosed in the Annual Report of FSN-SKA A/S, which is the management company of the joint taxation purposes. Moreover, the group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on unearned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Company's liability.

The bank has a pledge on subsidiary shares in Skamol Eastern Europe S.p.Z.o.o

20 Accounting Policies

The Annual Report of Skamol A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to large enterprises of reporting class C .

The accounting policies applied remain unchanged from last year. There have been made a few reclassification in the comparable figures.

The Consolidated and Parent Company Financial Statements for 2019 are presented in TDKK.

Recognition and measurement

The Financial Statements have been prepared under the historical cost method.

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, Skamol A/S, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and

20 Accounting Policies (continued)

losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

Business combinations

Business acquisitions carried through on or after 1 July 2018

Acquisitions of subsidiaries are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition. Acquired contingent liabilities are recognised at fair value in the Consolidated Financial Statements to the extent that the value can be measured reliably.

The time of acquisition is the time when the Group obtains control of the entity acquired.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition of subsidiaries are recognised in the income statement as incurred.

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Amortisation of goodwill is allocated in the Consolidated Financial Statements to the operations to which goodwill is related. Where the differences are negative, they are recognised immediately in the income statement.

Where the purchase price allocation is not final, positive and negative differences from acquired subsidiaries due to changes to the recognition and measurement of identifiable net assets may be adjusted for up to 12 months after the time of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.

Where cost includes contingent consideration, this is measured at fair value at the time of acquisition. Contingent consideration is subsequently measured at fair value. Any value adjustments are recognised in the income statement.

In respect of step acquisitions, any previously held investments in the entity acquired are remeasured at fair value at the time of acquisition. The difference between the carrying amount of the investment previously held and the fair value is recognised in the income statement.

Business acquisitions carried through before 1 July 2018

Subject to some exemptions, acquisitions carried through before 1 July 2018 are accounted for under the same accounting policies as those applying to business combinations carried through on or after 1 July 2018. The most material exemptions are:

20 Accounting Policies (continued)

- Identifiable assets and liabilities of the entity acquired are recognised only if they are probable.
- Identifiable contingent liabilities of the entity acquired are not recognised in the consolidated balance sheet.
- Where the purchase price allocation is not final, positive and negative differences due to changes to the recognition and measurement of the acquired net assets may be adjusted until the end of the financial year following the year of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.
- Transaction costs directly attributable to the acquisition of subsidiaries are included as part of cost.
- After the initial recognition, adjustment of contingent consideration is recognised directly with its counter entry in initial purchase price, thus correcting the value of goodwill or negative goodwill.
- In respect of step acquisitions, the carrying amount of the existing investments is recognised in cost.

Leases

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Group.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt

20 Accounting Policies (continued)

arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Net turnover

Information on business segments and geographical segments based on the Group's risks and returns and its internal financial reporting system. Business segments are regarded as the primary segments.

Income Statement

Net turnover

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Group.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Expenses for raw materials and consumables

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

Other external expenses

Other external expenses comprise indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

20 Accounting Policies (continued)

Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish subsidiaries. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Balance Sheet

Intangible assets

Goodwill acquired is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over its useful life, which is assessed at 5-20 years.

Patents and licences are measured at the lower of cost less accumulated amortisation and recoverable amount. Patents are amortised over the remaining patent period, and licences are amortised over the licence period; however not exceeding 5-20 years.

Software acquired is measured at cost less accumulated amortisation. Software is amortised on a straight-line basis over its useful life, which is assessed at 5-20 years.

Development costs and costs relating to rights developed by the Company are recognised in the income statement as costs in the year of acquisition.

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Interest expenses on loans raised directly for financing the construction of property, plant and equipment

20 Accounting Policies (continued)

are recognised in cost over the period of construction. All indirectly attributable borrowing expenses are recognised in the income statement.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Production buildings	50 years	
Other buildings	15-50 years	
Plant and machinery	8-20 years	
Other equipment	3-5 years	
Own Moler deposits	20 years	

Depreciation period and residual value are reassessed annually.

Assets costing less than DKK 13,800 are expensed in the year of acquisition.

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries

Investments in subsidiaries are recognised and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

Subsidiaries with a negative net asset value are recognised at DKK o. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

20 Accounting Policies (continued)

Inventories

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale, raw materials and consumables equals landed cost.

The cost of finished goods and work in progress comprises the cost of raw materials, consumables and direct labour with addition of indirect production costs. Indirect production costs comprise the cost of indirect materials and labour as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management.

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts. Provisions for bad debts are determined on the basis of an individual assessment of each receivable, and in respect of trade receivables, a general provision is also made based on the Company's experience from previous years.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Equity

Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

Provisions

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Group has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

20 Accounting Policies (continued)

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Loans, such as loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Cash Flow Statement

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

20 Accounting Policies (continued)

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand" and "Overdraft facilities".

The cash flow statement cannot be immediately derived from the published financial records.
